AIR-TO-AIR PORTABLE AIR CONDITIONER

Pinguino PAC T90

The new Pinguino PAC T90 portable air conditioner gives you the chance to move the freshness of the mildest spring into the hottest summer.

Featured with on board electronic controls.

Filled with ecologic R407C refrigerant gas.

TECHNICAL DATA		
Dimensions (hxw xd)	mm	940x495x410
Rated voltage/Frequency	V~Hz	230~50
Cooling capacity	Btu/h	8000
BOOST Cooling capacity	Btu/h	9000
Input power	W	930
Air flow	m^3/h	250-340
Dehumidification capacity	l/24h	23
Dehumidification capacity (only dehumidification)	l/24h	29

PAC T90

- Cooling capacity: 9000 Btu/h.
- It dehumidifies while conditioning, removing up to 23 l/day of excess moisture.
- Only fan function.
- Dehumidifying Function, a useful working mode, especially in humid seasons, able to remove up to 29 l/day of excess moisture.
- Electronic Humidistat to set the desired relative humidity in dehumidifying function.
- BOOST function: the maximum cooling power (9000 Btu/h) to freeze your summer.
- Exclusive Condensate Recycling System.
- AUTOFAN function: the appliance registers the room temperature and automatically ensures the best fan speed.
- 2-speed ventilation + SILENT mode, to ensure the most noiseless operation.
- Electronic timer.
- R407C refrigerant gas.
